Bootstrap
Java Script

PROJECTS

Home Automation

To control all devices using IOT.

Garbage Monitoring

We used this project to monitors' garbage system and it will notifies us when it get completed.

Automated Car parking system

It will help us to monitor number of cars entering and leaving. We can define number of slots to allow it to enter into parking area.

Plant monitoring system

It provides water for plants when ever they needed.

Quiz conducting web site

Word press helped me in developing this Web site.
